## SUMMARY

---

I am a highly motivated and dedicated recent graduate with a focus on both Frontend and Backend Development. I have hands-on experience in frontend technologies including HTML, CSS, JavaScript, and jQuery, as well as working with frontend templates to create visually appealing and interactive websites. Additionally, I am nearing the completion of a course in ASP.NET Core, where I gained solid experience in backend development, utilizing technologies such as Entity Framework for database interactions. I have also strengthened my skills in Microsoft SQL Server, applying database management and analysis techniques to ensure data-driven applications. I am eager to contribute my growing expertise and continue learning in a professional environment, actively seeking an internship or entry-level position where I can apply both my frontend and backend development skills.

## EDUCATION

---

### Jerash University

Bachelor of Computer Science

**February 2023**

- GPA: 84.6%

## Csourses

---

ASP.NET COR : Not finished yet

## SKILLS
